GANESH SINGH

Mumbai, Maharashtra | +91 7977445451 | ganesh9193singh@gmail.com | LinkedIn | GitHub

SUMMARY

Data Analyst fresher and BCA graduate (2026) with hands-on experience in Python (Pandas, NumPy, Matplotlib, Seaborn), SQL (MySQL), Excel, and Power BI. Skilled at cleaning messy data, finding patterns, and explaining results in a simple way, with project experience in customer feedback analysis, health-data analysis, and sales analysis, plus Generative AI using the Google Gemini API. Currently completing a Postgraduate Program in Data Science, AI and Analytics and learning Machine Learning. Seeking an entry-level Data Analyst or Business Analyst role where I can learn, contribute, and grow.

EDUCATION

Postgraduate Program in Data Science, AI and Analytics — **Expected Dec 2026**

Imarticus Learning, Mumbai

Bachelor in Computer Applications (BCA) – 68% — **2026**

Yashwantrao Chavan Maharashtra Open University (YCMOU), Maharashtra

Higher Secondary (12th) – 68% — **2023**

Shree N. D. Bhuta Junior College, Maharashtra

PROJECTS

Customer Feedback Analysis & GenAI Apology Email Generator | Click

- Analyzed a women's clothing e-commerce reviews dataset in Python: handled missing values and duplicates, cleaned review text with regular expressions, and identified critical (1–2 star) feedback.
- Grouped complaints into six categories (Fit & Size, Quality & Fabric, Looks & Color, Comfort, Service & Delivery, Disappointment & Returns) and visualized rating distributions and common complaint keywords with Matplotlib and Seaborn.
- Used the Google Gemini API to generate personalized customer-support apology emails from the most detailed critical reviews, with prompt rules to avoid invented order details or policies.

Sleep Disorder Analysis | Click

- Cleaned a 374-record sleep health dataset using Pandas: checked missing values, removed 242 duplicate records (132 unique people left), standardized category names, and converted blood pressure text into numeric fields.
- Compared Insomnia and Sleep Apnea cases: the Insomnia group slept less (6.7 vs 6.9 hrs) and had lower sleep quality (6.5 vs 6.9), while the Sleep Apnea group had higher average blood pressure (135/90 vs 132/86) and heart rate (74 vs 72 bpm).
- Found that average sleep quality falls as stress rises, from about 7.5 at stress level 4 to 5.6 at stress level 8; also analyzed occupation, gender, BMI, and age-group patterns with Matplotlib and Seaborn.
- Documented limitations (small sample after cleaning, correlation is not causation) and summarized findings in a PowerPoint presentation.

Retail Glassmorphism Dashboard (Power BI Theme & DAX) | Click | Live

- Built an interactive retail analytics dashboard with views for net sales, profit, order leakage (returned/cancelled orders), category, region, customer segment, payment method, and sales channel; published live on GitHub Pages using GitHub Actions.
- Wrote DAX measures (Net Sales, Net Profit, Order Leakage %, Average Order Value, Profit Margin %, month-over-month growth) with a date table and a custom Power BI theme file for a retail data model.
- Documented metric definitions, a validation checklist, and the limits of the demo data to keep the analysis transparent.

MySQL Practice & Sales Analysis Projects | Click

- Wrote MySQL queries using SELECT, WHERE, GROUP BY, HAVING, JOINs, and aggregate functions (COUNT, SUM, AVG, MAX), and practiced data cleaning (duplicates, NULLs, TRIM, LOWER, date functions).
- Completed a mini sales analysis project in MySQL Workbench applying these techniques to answer business questions.

SKILLS

Programming & Libraries: Python (Pandas, NumPy, Matplotlib, Seaborn), Jupyter Notebook

Data & Visualization: Microsoft Power BI (DAX measures, themes), Microsoft Excel

Database Management: MySQL, MySQL Workbench, SQL (Joins, Aggregations, Data Cleaning)

Generative AI & Other: Prompt Engineering, Google Gemini API, Exploratory Data Analysis, Data Cleaning; currently learning Machine Learning

Professional Skills: Data Storytelling, Presenting Insights, Documenting Limitations, Problem Solving

CERTIFICATIONS

Postgraduate Program in Data Science, AI and Analytics — **Expected Dec 2026**

Imarticus Learning, Mumbai
